

RE: HB-6355

To the Members of the Judiciary Committee:

My name is Adam Reagan and I reside in Sandy Hook, CT 06482.

I am deeply concerned about persons that are at risk having to worry about violent offenders possessing firearms. A friend's mother lost her daughter because the inability of her daughter to seek a protection order against a person she met as an acquaintance. She ended up being shot and killed by this person and this all might have been avoidable if bills like HB-6355 were put into place and acted upon by our law enforcement officials. Please strongly consider this legislation as if this family's daughter was your daughter or son.

Sincerely,

Adam Reagan
